FKI Logistex

1524 Lebanon Road

Danville, KY 40442

May 5, 2008

Frough Q. Sherwani, Reviewer

SOURCE ID: 21-021-00007

AGENCY INTEREST: 375

ACTIVITY NUMBER: APE20040002

SOURCE DESCRIPTION:

The source manufactures conveyor equipment for miscellaneous industries in Danville, Kentucky. The source has a spray paint booth, powder coating station, and two boilers for heating (4.375 MMbtu/hr, each natural gas as a primary fuel and Fuel oil # 2 as a secondary fuel).

On March 22, 2005, the Division received an application from the source for the renewal of their permit F-00-017 issued on August 29, 2000.

The source has accepted a facility-wide cap on annual VOC emissions of no more than 90 tons per rolling 12-month period. Compliance with this allowable will be demonstrated by record keeping and emissions estimating methodology specified in the terms and conditions of the permit.

The source has accepted a facility-wide cap on annual individual HAP emission of no more than 9.0 tons per rolling 12-month period. Compliance with this allowable will be demonstrated by record keeping and emissions estimating methodology specified in the terms and conditions of the permit.

The source has accepted a facility-wide cap on annual combined HAPS emissions of no more than 22.5 tons per rolling 12-month period. Compliance with this allowable will be demonstrated by record keeping and emissions estimating methodology specified in the terms and conditions of the permit.

PUBLIC AND U.S. EPA REVIEW:

On March 26, 2008, the public notice on availability of the draft permit and supporting material for comments by persons affected by the plant was published "*the advocate messenger*" in Lebanon, Kentucky. In addition, notification of the issuance of the draft permit was sent to the U.S. EPA on March 30, 2008 via e-mail. The public comment period expired 30 days from the date of publication. No comments were received during this period. The permit is now being issued final.
